ECOTP600

ECO TP600 is an innovative biometric fingerprint time attendance system, offering unparalleled performance using an advanced algorithm for reliability, precision and excellent matching speed. It can store 8,000 fingerprint templates & 200,000 record transactions. The 3.5 TFT screen can display more information vividly, fingerprint image quality and verification result.

Terminal Overview

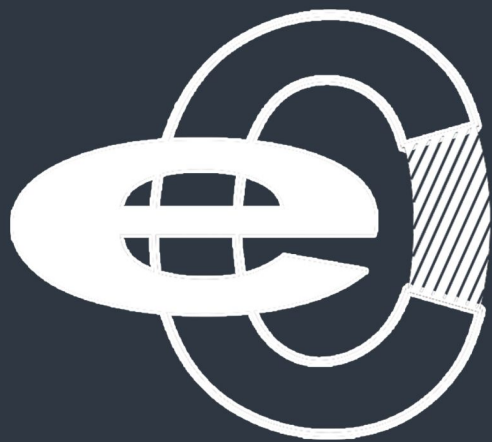

SPECIFICATIONS

Model	ECO TP600
Screen	3.5 inch TFT Color Screen
Communication	TCP/IP, USB Flash Disk
Fingerprint Template	8,000
Records Capacity	100,000
Algorithm version	10.0
Authentication Method	Fingerprint/ Password/ RFID Card/Mifare (Optional)
Identification Time	<1S
Authentication Mode	1:1, 1:N
Operation Mode	Off-line/Online
Power	DC12V/1.5A
Operating Environment	0°C - 45°C, Humidity: 20% - 80%
Dimension(L*W*H)	192*41*140mm

Note: Specifications are subject to change
