

ECO2600D

ECO2600D is a professional access control integrated machine. It uses a 2.4-inch high-definition color screen and come with TCP/IP communication mode to meet various network environments. ECO2600D advanced access control feature further enhances security and adapts to a variety of high security requirements.

Terminal Overview

SPECIFICATIONS

Model	ECO2600D
Screen	2.4 inch TFT Color Screen
Communication	TCP/IP, USB Flash Disk
Fingerprint Template	1,500
Records Capacity	80,000
Memory	128MB & SDRAM 32MB
Algorithm version	10.0
Authentication Method	Fingerprint/ Password/ RFID Card
Identification Time	<1S
Authentication Mode	1:1, 1:N
Access Control Interface	Electric lock, Door sensor, Alarm, Exit button
Operation Mode	Off-line/Online
Power	DC12V/1.5A
Operating Environment	0°C - 45°C, Humidity: 20% - 80%
Dimension(L*W*H)	83*34*181mm

Note: Specifications are subject to change
