AN EFFECTIVE CHURCH BIOMETRIC ATTENDANCE SYSTEM

ECO Church System which provides a biometric attendance for church administration and ministry. This system helps to provide statistical reports of the church growth and providing member attendance for all services and activities. With Attendance Tracking, it allows to record and monitor which member or families are absent for a period of time.

With this record, priests and pastors of the church can make arrangement for home visitation.

Church Biometric ATTENDANCE SYSTEM

- Keep track of member information such as baptism date, joining date, date of birth, location, group, ethnicity & so on.
- Knowing Active and inactive member.
- Providing church members attendance for all services & activities.
- Easy to track church members ages & birthdays.
