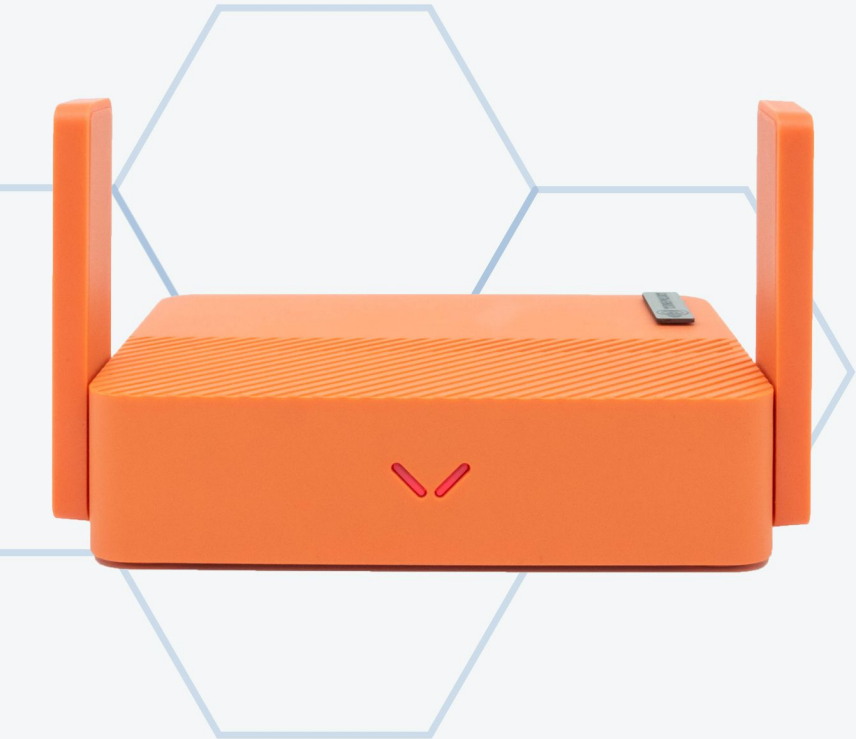
ECOTIMEPRINT

ECOP2P 1200

Your Smart Time Attendance
Network Bridge



The ECOP2P 1200 is ECOTIMEPRINT's latest P2P model, featuring a compact, lightweight design and smarter firmware for enhanced stability and performance.

With ECO P2P technology, it connects time attendance devices across multiple locations via the Internet, allowing centralized management from a single main office. Perfect for companies with multiple branches, administrators can download device data directly from headquarters.

It is also more than just a network bridge, the ECOP2P 1200 also provides Cloud Portal access capabilities, enabling users to view their attendance record anytime, anywhere.

Other parameter included device capacity monitoring and door lock control, offering a complete and user-friendly attendance management experience.

Specification

CPU	580 MHz CPU
Antenna	2 x External Antennas
Ethernet	1 x 10/100 Mbps WAN Port
	1 x 10/100 Mbps LAN Port
Wireless Standards	IEE 802.11ac/n/a 5 GHz
	IEE 802.11n/b/g 2.4 GHz
Wireless Frequency	5 Ghz, 2.4 Ghz
Wireless Encryption	WPA-PSK, WPA2-PSK, WPA-PSK/WPA2-PSK
USB	1 x USB-A 2.0
External Power Supply	5 V / 3 A USB-C
Weight	99.9 g
Dimension	118×80×27.5 mm
