ECO4500

ECO4500 makes fingerprint enrollment easy and convenient. It is a stable and excellent fingerprint scanner. The device can enroll fingerprint template and save to the computer ECOTIMEPRINT Attendance System by USB interface. After enrollment is completed, the fingerprint can be upload to terminal via ECOTIMEPRINT Attendance System.
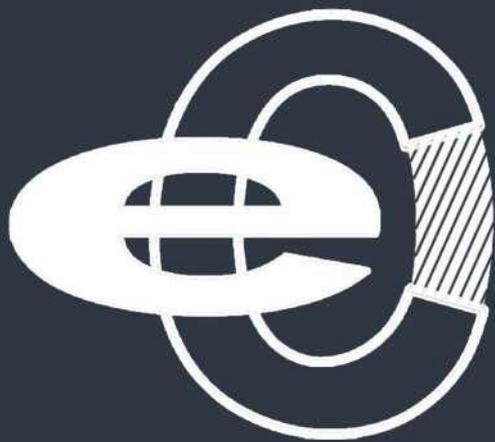

Terminal Overview

Fingerprint
Sensor

Model	ECO4500
Material	Optical
Communication	USB 2.0 / USB1.1 / USB1.0
CPU	120MHz DSP
Flash	16 KB
SoC	RTOS
Image Quality	0.3 million pixels CMOS
Authentication Method	Fingerprint
Identification Time	<1S
Sunlight Operation	White filed, General Sunlight
LED	Green
Image Resolution	500 dpi
Product Certifications	FCC, CE
Power Current	200mA
Power Voltage	5V (USB)
Operating Environment	0°C - 45°C, Humidity: 90% r.h.
Dimension(L*W*H)	65.5*48*79.8mm

Note: Specifications are subject to change
